ABOUT ME

Adaptable and motivated MERN Stack Developer with hands-on experience in developing scalable web applications and real-time business solutions. Skilled in React.js, Node.js, MongoDB, Java, Framer, and WordPress development. Passionate about continuous learning, problem-solving, and collaborating effectively within dynamic team environments. Strong ability to adapt to new technologies and deliver efficient, user-focused solutions.

WORK EXPERIENCE

SOFTWARE ENGINEER - Madura Solution

Nov 1, 2025 - Present

- Spearheaded the development of modern web applications using the MERN Stack, while also delivering responsive solutions through Framer and WordPress for business and company platforms.
- Led the successful execution of enterprise projects including CRM, HRMS, Payroll Management System, and Cloud Storage System, earning promotion to Team Lead within 6 months for consistent performance, technical contribution, and team collaboration

INTERNSHIP-Training Trains Software Technologies, Erode.

June - October 2025

Worked on responsive web applications and real-time projects using HTML, CSS, JavaScript, PHP, and web scraping technologies, contributing to both frontend development and data automation.
